

MOUNTAIN VIEW

INTERNAL MEDICINE & PEDIATRICS

A Message to our Patients and Families about Coronavirus (COVID-19)

Tuesday March 17, 2020 (1221)

Mountain View Internal Medicine and Pediatrics is closely monitoring the recent outbreak of COVID-19 as dozens of new cases have been reported in VA, MD and DC. We're taking the necessary precautions to ensure the safety of our patients, families and employees. We're currently navigating through the science-based information and recommendations provided by health officials and government authorities including the World Health Organization (WHO), the Centers for Disease Control and Prevention (CDC) and Virginia Department of Health (VDH).

Our Response to the Outbreak

As of now our office is operating under normal business hours. We will provide updates through our website, social media and patient portal, if we are directed by public health officials to adjust our operating hours or temporarily close.

For now, our employees are taking additional health precautions within the working environment and are being urged to stay home if they have any symptoms of an illness.

In addition to our staff's precautionary measures, our office has been subject to thorough cleaning in order to disinfect all high-touch areas and will continue this process.

As the situation continues to evolve, you may find it more convenient to reschedule your appointments or use the patient portal for a TeleVisit. We ask our patients to please communicate with us through our patient portal by visiting www.mvimp.com, or calling our office at 571-248-0167.

Sincerely,

Dr. Vipul V. Parikh
